## Left Over Two Hundred Thousand Dollars' Worth Of Bad Accounts Behind Him--Thought To Be In Canada By This Time.

[BY ASSOCIATED PRESS.]  
Chicago, April 24.—A grand jury indictment has been returned against H. Hopkins, the fugitive bankrupt broker, charging him with the embezzlement of five thousand dollars from his customers. It is believed Hopkins has fled to Canada.  
It is estimated that Hopkins' liabilities will reach over two hundred thousand dollars and perhaps more. His office furniture has been attached on order from Judge S. H. Boren, of the United States District court of Chicago, who appointed Edwin C. Day, receiver.  
Hopkins is reported as missing since Saturday last, when some of his Milwaukee clients talked to him in his Chicago office over the telephone. A former Milwaukee woman is said to have left the city with him and it is thought he is in Canada by this time.

# SANTA BARBARA IS READY FOR FLEET

Evans Fleet Expected to Cast Anchor in the Harbor Tomorrow Afternoon.  
[SPECIAL TO THE GAZETTE.]  
Santa Barbara, Cal., April 24.—Another round of festivities for the officers and men of the American fleet will begin tomorrow afternoon, when the sixteen battleships of the Atlantic squadron will cast anchor in the harbor of Santa Barbara for a five days' stay. The city already is filling with visitors and sightseers and before long the streets and buildings will be so profusely decorated, "Triumphal arches" have been erected at many street intersections, and immense signs that read "Welcome" are among the decorations.  
The Civic League has completed elaborate preparations for the reception and entertainment of the naval men. A fund of thousands of dollars raised by popular subscription has been placed at the disposal of the league. Citizens of Ventura and San Luis Obispo counties joined with the businessmen of Santa Barbara in providing the money necessary to carry out the elaborate entertainment program. The crowning feature of the week will be the floral parade and battle of flowers on the boulevard as the procession is reviewed by the naval officers. The program for the five days follows:  
Saturday, four p. m.—Arrival of the fleet, to be followed by official calls by the mayor and the officers of the Civic League.  
Sunday—Entire day devoted to visiting the ships.  
Monday—Morning: Baseball and football tournament; Afternoon: Floral parade.  
Tuesday—Morning: Tennis and basketball tournament; Afternoon: Garden party tendered to the officers of the fleet by Rear Admiral McCall, retired, of this city; Evening: Ball tendered to the officers of the fleet by Mr. and Mrs. William Miller Graham at a cost of \$10,000.  
Wednesday—Morning: Semi-finals, tennis and baseball; Afternoon: Finals, tennis and baseball; Evening: Dance of the flowers and bluejackets' ball at the Plaza del Mar.  
Thursday, ten a. m.—Departure of the fleet.

# MARINE ENGINEER'S WOE LAID TO MOTHER

Of His Wife--Was Arrested on Charge of Desertion--Under Bail.  
[SPECIAL TO THE GAZETTE.]  
Milwaukee, Wis., April 24.—Too much mother-in-law is the cause of the woes of Walter Oertling, a marine engineer who is under arrest on a charge of wife abandonment, having been brought here from Milwaukee yesterday. Oertling claims that he had been absent but two weeks and that he had been in communication with his wife all of the time and he pleaded not guilty to the charge when arraigned. Bail was fixed at \$500 and the hearing will be heard tomorrow. Oertling was employed on the Goodrich steamer Virginia last season as assistant engineer. He is 26.

# BIG LOCKOUT THREATENED BY ENGLISH SHIPBUILDERS

## Unless Striking Workmen Return To Work Tomorrow--Would Involve 250,000 Men.

[SPECIAL TO THE GAZETTE.]  
London, April 24.—A repetition of the great shipbuilding strike of the nineties, one of the costliest and most serious contests in the annals of British labor, is now impending. The time limit fixed by the Shipbuilding Employers' Federation within which the striking workmen on the northeast coast may return to work will expire tomorrow. The men have twice voted against returning to work on the terms offered and if they persist in their refusal all the shipbuilding yards in the country will be closed. Such a lockout would involve fully a quarter of a million people.  
The ship workmen on the northeast coast have been on strike since last January. Two disputes are involved in the controversy. The earlier in point of time and the larger in that affecting the engineering trades. The parties to it are the Northeast Coast Engineering Trades Employers' association and certain trade unions of which the Amalgamated Society of Engineers is by far the most important. Most of the employers forming the association are also shipbuilders. Others are builders of engines for other than marine purposes, so that the interests concerned extend considerably beyond shipbuilding on the side of both masters and men.  
Last November the Employers' association, having come to the conclusion that they must propose a general reduction of wages on account of depressed trade, sent out notices to that effect to the men employed in engine shops, boiler shops and foundries. They proposed a reduction averaging five per cent. The men are organized in twenty-eight societies representing engineers, machine workers, pattern makers, iron found-

# EMPLOYERS REFUSE TO PAY ADVANCE

Of One Dollar Per Thousand Asked by Local Cigarmakers' Union in Green Bay.  
[SPECIAL TO THE GAZETTE.]  
Green Bay, Wis., April 24.—At a meeting of the eleven cigar manufacturers of this city it was unanimously agreed not to pay the advance of one dollar per thousand as adopted by local unions. The five manufacturers who took the men back to work yesterday discharged them this morning. A meeting will be held Saturday night and at that time it is expected that a formal notice will be served on the union men telling them that they will not grant the increase demanded. The high price of leaf tobacco, it is claimed by the manufacturers, prevents them from paying the higher wage scale demanded.

## NEW BALL CURVES.

Latest Methods of the Pitchers  
to Deceive Heavy Batters.

## MATHEWSON'S DRY SPITTER.

Famous Box Artist's New One May  
Prove a Terror to the Sluggers.  
Richie's Serpentine, or Skidoo, a  
Foiler—The Knuckle Ball.

It is no longer enough for the base-  
ball twirler to have old fashioned  
curves and "shoots" in his repertory.  
The spit ball showed what could be  
done with a sphere. This delivery  
made Chas. of the New York Ameri-  
cans one of the greatest pitchers in the  
country for several seasons. It brought  
to life Harry Howell of the St. Louis  
Americans, a back number, and placed  
him among the most dreaded pitchers  
in the business; it put men like Lob-

hard of the Cleveland Americans into  
fast company; it made the way of the  
batter far harder than it had been be-  
fore.

Durston greeted the spit ball when  
it first was suggested, but the men  
who have to face it no longer smile.  
And, with this experience in view,  
there is no longer a shout of laughter  
when a new wrinkle is proposed by  
some pitcher with an investigating  
turn of mind.

In the hunt for pitching novelties  
two of the Philadelphia National  
league club twirlers are taking a lead-  
ing part.

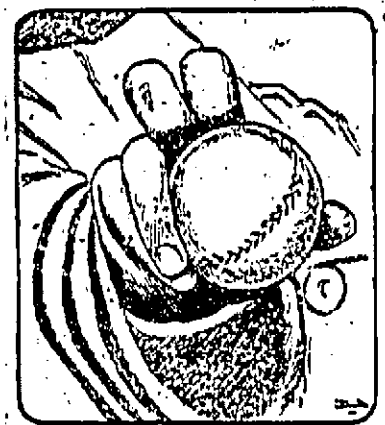

Moreau's knuckle ball is a most dif-  
ficult shot to throw. The pitcher re-  
quires a big hand, for he must be able  
to take a powerful grip on the sphere  
while holding it between his thumb  
and third and fourth fingers, his two  
other fingers being bent so that only  
the knuckles come in contact with it.  
The ball is thrown with moderate  
speed and acts like a spit ball. In-  
stead of curving, however, it falls  
downward suddenly and heavily. Even  
when it is hit the ball does not travel  
far. Moreau tried his knuckle ball last  
year with excellent results.

He has better control of it than ever  
this year, and Manager Murray expects  
him to be one of the winning pitchers  
of the league.

Pitcher Richie's serpentine or skidoo  
curve is delivered with the ball held  
somewhat loosely in the hand, the  
thumb and third finger almost circling  
it. The ball comes up to the plate  
straight, but bends away suddenly,  
somewhat after the fashion of Christy  
Mathewson's "fade away."

If the curve works all right, Richie  
says, no batter who faces him will  
have a higher average than .023.

Christy Mathewson of the New York  
Nationals has a new pitching delivery.  
Matty calls his new freak ball the  
"spitters spitter," for he does not mol-

ten the ball, yet it breaks like a spit-  
ter. He used it in a recent game, and,  
though it was simply an experiment,  
it fooled several batters.

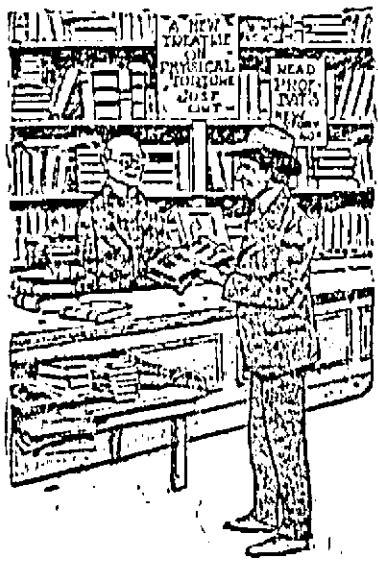

The "dry spitter" differs radically  
from the common spit ball not only be-  
cause the sphere is not moistened, but  
because it is a slow instead of a fast  
ball. Speed and a quick break have  
been the essential qualities of the damp  
delivery, but Matty throws his de-  
ceiver without any effort. In the re-  
cent game the ball floated up to the  
plate without any force behind it, and  
just as the batter would take a healthy  
swing at it the sphere would suddenly  
waver and drop dead into the catcher's  
mitt. It was like a piece of paper flut-  
tering along and encountering a puff of  
wind from the opposite direction.

## YOU KNOW

That you have often met people who had such a small number of teeth as to cause astonishment.

This indicates just what many people are doing today.

Failing to care for their teeth at the proper time.

Little unnoticed decay grows larger just as sure as they are there. Just such cavities, I fill quickly at a price that doesn't cause regret for having it done, and it will please you to know that your teeth are sound.

If you have lost a tooth I can quickly fit another in its place with such art that your best friends will never detect it.

You'll be glad to tell others how careful and satisfactory are my operations.

## A. C. JENKINS IS SHOT IN HAND

OLD REVOLVER HAD ONE CART- RIDGE LEFT IN IT.

**INJURY IS NOT SERIOUS**

Bullet Went Through the Palm of His Left Hand—Anti-Tetanic To Be Used.

Arthur C. Jenkins, cashier of the Rock County Sugar Company, was accidentally shot this noon while examining an old revolver. The bullet plowed through the palm of Mr. Jenkins' left hand, coming out on the back and barely missing his son Elton who was standing near his father. Dr. Charles Sutherland was called, the wound cauterized and later antitetanic will be injected into the tissues of the body to prevent lockjaw setting in. Mr. Jenkins was examining the old weapon, which is a family heirloom, while sitting at the dinner table and his son Elton, who had brought it to him, was standing beside him. A cartridge which no one knew was in the chamber suddenly exploded and unfortunately entered Mr. Jenkins' hand as he was passing out on the chair side just grazed the boy. The wound while painful is not dangerous and will only inconvenience Mr. Jenkins for a short time.

**HE WAS PLEASED.**  
Read what R. S. Brooks of Mt. Sterling, Ill., says about a paint job in his town: Brooks sold Devco lead-and-zinc paint. Edward Harper came into the store and picked out colors for painting his house. He said he needed 12 gallons for body and 5 gallons for trimmer; he based his estimate on the advice of a leading painter and another dealer who handles a leading brand of mixed paint. Mr. Brooks took the dimensions of the house, and said it could be done with 7 gallons for body and 2½ for trim. If he used Devco lead-and-zinc paint, Harper didn't believe it could be done; but he did it. 9½ gallons instead of 17. Mr. Brooks was so enthusiastic that he got a big Devco sign and put it up in a conspicuous place at his house. Devco is certainly another name for paint economy.

SUGAR MAKING IN CUBA.

Above picture shows one of the better class of sugar mills, exterior and interior, and the old fashioned way of bringing the sugar to the mill.

The government report from Consul General J. L. Rogers of Havana states that it is estimated that the Cuban sugar crop will be greatly reduced this year on account of the hard times and that it may fall below 1,000,000 tons. Think of what this really means. One million tons of sugar constitutes one-third of the world's entire cane sugar production. On the island of Cuba in 1822, 75,000 tons constituted the actual production. In 1894 this cane sugar product for Cuba alone had run up to 1,051,214 tons.

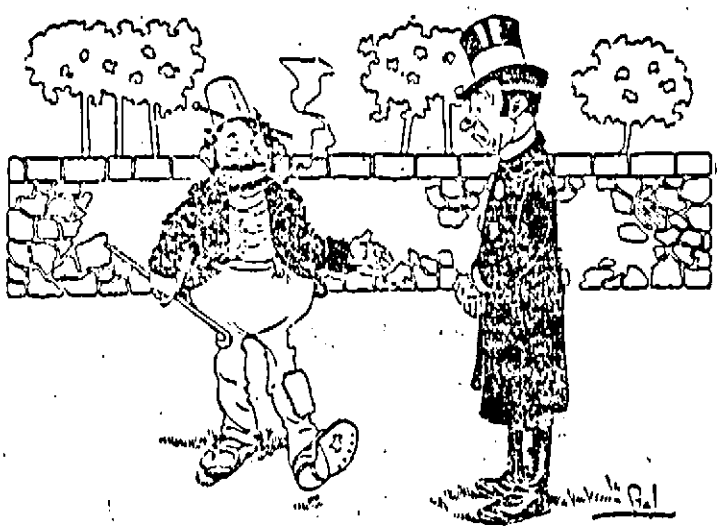

Cuba not only produces more cane sugar than any other one section of the world but it has the best equipped mills, capable of turning out the greatest amount per mill. Over one hundred mills are thoroughly equipped on the island of Cuba. This includes modern machinery and modern transportation facilities. Each of these mills has its private railway running through the fields, so sugar can be loaded direct and transferred to the mill at a minimum expense. Some of the sugar mills produce as high as 18,000 tons in a season.

The Cuban grinding season lasts from about December 1 until the spring rains begin May 15. During this time very little rain falls and the crop may be harvested without damaging the roots of the cane, and this is a very important consideration where land will continue to yield well for from eight to twenty-five years without replanting. The best sugar has been a development of the last few years and has grown remarkably. In 1840 the total beet sugar output was 50,000 tons. In the United States statistics for 1907 we find that last year 416,000 tons were produced; and in 1906, 433,000 tons. Ninety-four thousand acres were planted to beets last year and farmers received \$1,500,000 for sugar beets in the United States. The beet sugar production has been increased by encouragement from the government in the way of bounties, while cane sugar production has been left to grow on its own merits. Whether beet sugar will ever supersede cane sugar as the more economical one alone will tell. Many authorities claim that it furnishes a

more economical product than the cane. Certainly it is cheaper for home consumption. The cost of transportation and import duty reduces the net profit to the Cuban sugar cane grower so that very little margin is left, but the big plantations are so well managed that some of them have cleared as high as \$200,000 a year. Now that conditions in Cuba are settling themselves there will undoubtedly be a great increase in the total tonnage produced. At the present time American capitalists are rapidly buying up the land, especially around Matanzas bay, and are going into the sugar business extensively with their own well equipped centrales.

## Steeplechase for Ladies.

A steeplechase for ladies, held annually in Calcutta, is believed to be the only existing event of its kind. The course is two and a half miles long, with many mud fences, and the prize consists of a handsome cup.

VERY DIGNIFIED

Facetious Tramp—Yer needn't wait, Charles; I'll foot it home.

Secretary of Commerce and Labor.

Washington, D. C., April 21.—Secretary Straus, of the department of commerce and labor, is out with his big stick after anarchists. Whatever is to be done by the national government is to be done through Mr. Straus, and it is just becoming known that determined and energetic steps are being taken to protect American citizens from lawless anarchists, which is showing such strength at the present time.

It is generally supposed that the outbreaks which occur occasionally, such as the attack on Chief of Police Shipley of Chicago and the bomb throwing in New York, are the outbreaks of crazed individuals. It is now becoming known that anarchism in America and in the world is far better organized than had previously been supposed. They have signs and grips and communicate in codes.

The day following the attack on Chief Shipley, Secretary Straus issued a circular to immigration officers instructing them to confer with the local police officials for the purpose of securing the deportation of foreign anarchists and criminals who had slipped into this country in defiance of law. Since then instructions have been sent out to immigration officers to report the results of their conferences with the local police.

Secretary Straus states this circular was not sent out because of the attack on Chief Shipley, but was the result of a thorough investigation prior to the sensational episode and would have been sent just the same. The government is somewhat handicapped in not having a department directly responsible for the study of anarchism.

The United States has its secret service, which is primarily designed for the suppression of counterfeiting and after that for protection of the president. The secret service is splendidly organized, absolutely free from partisanship and capable of doing the best grade of detective service the world has ever known. It is limited by law, however, to the performance of specific duties under the treasury department alone. The postoffice department has another good detective service in the division of inspectors, but they have nothing whatever to do with anything except the postal business. The international revenue agents keep distilleries, breweries and cigar factories under the closest government espionage. At the present time Secretary Straus, through the immigration officers, is able to prevent the influx of noted anarchists and has the power to deport them if their conduct is such as to arouse suspicion within one year, but aside from that he is greatly handicapped. There is great need at present for a systematic and thorough study of the anarchistic situation in America and in the world today, but at the present time Secretary Straus is doing everything possible to remedy conditions.

**Useful Hint.**  
A blank book for addresses is invaluable in every family. Into it is copied the post office address of the people with whom you have business dealings, as well as that of relatives who are not regular correspondents. Then, when mother is away there is no commotion over a lost address, as the book in the desk gives the desired information. Leave two or three lines under each entry for corrections, alterations and memoranda.

"War," said the truculent old general, "is a necessity. Science teaches us that we must have war in order to keep the population properly thinned down." "Science once taught us so," the apostles of universal peace agreed, "but you must remember general, that that was before the advent of the automobile."

**No Engagement Rings.**  
Girls in Denmark never experience the pleasure of receiving a diamond engagement ring. They are presented with a plain gold band, which is worn on the third finger of the left hand. On the wedding day the bridegroom changes the ring to the right third finger, which is the marriage finger in that country.

**ALTON IS DEFEATED AGAIN**  
SUPREME COURT ONCE MORE DECIDES SCHOOL CASE.

County Tribunal's Finding Against the Negro Sixth Time.

Springfield, Ill., Apr. 24.—For the sixth time the supreme court in the celebrated Alton school case has reversed the findings of the Madison county circuit court and remanded the case with instructions to return a verdict finding that the mayor and city council and board of education of the city of Alton are unlawfully keeping the two children of Scott Hibbs, a colored man, from attending the white school in that city nearest the Hibbs home.

This case has been in the courts for ten years and former Gov. and United States Senator John M. Palmer of this city was one of the original attorneys for Hibbs.

The evidence shows that in order to keep the colored people of Alton from sending their children to the same schools that the white children are attending, the city council of Alton passed a law changing the school districts of the city in order to keep the negro children in two schools that were built for them. Hibbs and other negroes at the Washington school, one of the white schools, but armed policemen of Alton were stationed at the doors of each of the white schools and no negro children were allowed to enter.

Hibbs instituted mandamus proceedings in the Madison county circuit court to compel the city authorities to permit his children to attend the Washington school, but the lower court refused to issue the writ. He then appealed to the supreme court, which reversed the case and remanded it, but on every succeeding trial the result has been the same, the lower court paying not the slightest attention to the orders of the supreme court.

**PLAN TO REVISE WAGE SCALE.**  
Illinois Miners Take Action That Angers the Operators.

Springfield, Ill., Apr. 24.—At a short session of the joint convention of miners and operators of the state held Thursday morning, a committee of six was appointed by the miners to form a new wage scale which is to be submitted to the operators at a joint session Friday afternoon. The operators are much incensed at this turn of affairs and state that should the wage scale be revised, it will have to be thoroughly revised and the miners of Illinois will have to come down to the wage scale paid by the mines of Indiana before an agreement can be reached.

It is now the prevailing opinion that the present joint convention will be unable to bring about an agreement. Both sides are taking radical stands and the miners and operators seem to be drifting farther apart. Both sides agree that a general strike seems imminent. The operators of

the northern part of the state have agreed to uphold the mine managers should a strike result.

**Tucker Indicted Again.**  
Topeka, Kan., Apr. 24.—The federal grand jury here Thursday returned another indictment against H. H. Tucker, Jr., secretary of the Uncle Sam Oil company, charging him with the use of the mails with the intent to defraud. A new \$10,000 bond is required. This is the third indictment to be returned against Tucker. The other two were quashed.

**Kills His Wife and Himself.**  
Iron Mountain, Mich., Apr. 24.—Andrew Johnson shot and killed his wife and then committed suicide Thursday. Jealousy was the cause of the tragedy. Three children survive.

**Mastery's Gentle Hint.**  
The story goes that a pretty young lady once played in class a ballad by Liszt walked up and down the room excitedly murmuring: "Holliger Holliger! Holliger Holliger!" (the equivalent of "Holliger Holliger") But when she had finished he went up to her in a most friendly manner, laid his hand upon her head as if in benediction, and said, gently: "My dear child, marry soon. Good-by!"

**A Woman's Corset Makes Her Figure**  
Prominent Dressmaker Tells How Any Woman Can Select The Correct Corset For Her Figure and Save Money.

"The chief difference between a well-dressed woman and the average dowdy female you meet on the streets lies not in the costume, but in the corset she wears."—said a well-known dressmaker. "Every dressmaker knows that the dress, but the corset, makes the figure."

"It is particularly true of the styles in vogue this season. Women wonder why their clothes never seem to look right and lay the blame on the dressmaker, while it's the corset, not the dressmaker, that's at fault. If everybody only knew how really it is a whole lot more well-dressed women in this world."

"It's just a matter of timing upon being served with Kabo corsets. There is a Kabo corset for every figure and every effect any woman or dressmaker could wish. And they are all as near exact perfection as you will ever see a corset in this world, just let me tell you that. It doesn't matter what sort of a figure you have, long, short, plump, or thin—there is a Kabo style for you, and it's the best and most correct in style, but in quality, workmanship, materials and trimmings they are the best the market affords. Every Kabo corset has the absolutely most important feature, that is the greatest improvement known to modern corset making and it is found in Kabo corsets only. There are no brass points in the Kabo. You can pay \$15 for a pair of corsets, but you won't get any better corsets, but you will get them from Kabo. According to a Kabo, which sells for \$1.00 to \$3.00, according to the size. You save money in buying the Kabo. See that the next corset you buy is a Kabo. You will not be disappointed."

The new Kabo style is now ready. It shows styles for every figure and will be sent free upon request. Address Kabo Corset Co., Dept. 72, Chicago. This book will help you get the most out of your clothes.

Occasions where we "fall down" in giving satisfaction is only an occasional thing. The unexpected seldom happens with us. Not occasionally, but always, do we expect to carry out the pledge made in our guarantee.

Our prices are the same to all and not prohibitive to any. They are within the reach of the most modest pocketbook. Quality sells the better the success in business—the better the quality the greater the success, and to establish those relations firmly between my patrons and myself is my constant aim. I have over 800 samples to select from at prices \$15 and up. You are sure to get what you want.

**Sharples Separator Will Pay For Itself**

We cannot tell how you are fixed to acquire money for a separator; probably you have lots of it lying around, for the dairy farmers are certainly the best fixed financially of all the farming community; but, if you can't get money in any other way, sell enough of your cows to pay for it.

If you have a ten cow dairy you can sell enough cows to pay for a separator and what cows you have left will make you far more money than when you had the whole herd and no separator. You could sell the poorest cows, for probably some of them are eating their heads off, anyway. Get our booklet and read up on the matter.

DR. BEATON WILL  
GIVE LECTURES

TO CONDUCT INSTITUTE OF RE-  
LIGIOUS EDUCATION.

## PRINCIPLES OF EDUCATION

And the Bible in Social and Civic Life  
Will Be Subject at Congrega-  
tional Church.

Beginning Sunday morning, April  
26, and lasting through Thursday, Ap-  
ril 30, Rev. David Beaton, M. A., lec-  
turer in general literature at the Uni-  
versity of Chicago, will conduct an in-  
stitute of religious education at the  
Congregational church. He will de-  
liver addresses Sunday morning and  
Sunday evening and on the following  
four days the meetings will be held  
at 4:15 in the afternoon and at 7:45  
in the evening. The church is pre-  
siding this course of lectures at its  
own expense and offering it to the  
community. There will be no collec-  
tions. Dr. Beaton is a specialist in  
his line of work. He is an interesting  
speaker, and his point of view is un-  
usually comprehensive. The after-  
noon addresses are scientific but very  
simple and practical; the evening ad-  
dresses will deal with the biggest  
themes of the home, state and school  
life.

The object of this course of lec-  
tures is to present the importance of  
religious education in our modern so-  
cial and national life, and to awaken  
a deeper interest in the moral and re-  
ligious training of the coming genera-  
tion. At the afternoon conferences  
opportunity will be given for ques-  
tions and discussions on the vital top-  
ics of the home and school.

The program in full is as follows:

**SUNDAY.**

10:30 a. m. Sermon—Divine Revela-  
tion Through Human Experience.

7:30 p. m. Address—The English  
Bible and Civil and Religious  
Progress.

**MONDAY.**

4:15 p. m. Principles of Scientific,  
Moral and Religious Education.

7:45 p. m. The Building of Family  
Life.

**TUESDAY.**

4:15 p. m. The Physical and Mental  
Growth of the Child.

7:45 p. m. The Literary and Edu-  
cational Value of the Bible.

**WEDNESDAY.**

4:15 p. m. Various Periods of  
Growth and Subjects Suitable.

7:45 p. m. Motherhood and the  
Home.

**THURSDAY.**

4:15 p. m. Adolescence, Its Crises  
and Problems.

7:45 p. m. Fatherhood and Citizen-  
ship. (The work of men in  
church and state.)

The week day afternoon addresses  
will be given in the parlors of the  
church and the evening addresses in  
the auditorium.

COOPER WILL SPEAK

Monroe, Wis., April 24.—The an-  
nual meeting of the assessors of  
Green county for conference with Su-  
pervisors of Assessment J. C. Stein-  
man will be held in this city on Tues-  
day, April 28. Mr. Steinman has in-  
vited members of the county board of  
supervisors to attend this meeting. In  
a number of counties in the state  
supervisors participate in the meet-  
ing of assessors.

The bankers of the city will hold a  
meeting at the First National bank  
this evening to arrange for the enter-  
tainment of Group No. 2, of the Wis-  
consin Bankers' association which  
will hold the annual meeting in this  
city on Wednesday, May 20.

Literature concerning Sherburne  
H. Becker, of Milwaukee, for the repu-  
bican gubernatorial nomination is  
being circulated in Monroe and Green  
county. Hundreds of letters contain-  
ing a large pamphlet have come  
through the mails.

Congressman Cooper has written  
Adjutant Thomas Luchinger, of O.  
P. P. P. post, G. A. R., accepting an  
invitation extended by the post some  
months ago to the congressman to de-  
liver the Memorial day oration in  
this city.

Ed Wenger is in the city from Phil-  
lips, Wis., on a visit to relatives. Mr.  
Wenger has introduced the foreign  
cane industry in Price county and  
will have a number of factories in  
operation the coming season.

Mrs. J. C. Penn and two daughters  
spent yesterday at Janesville.

Miss Frances M. Staver is visiting  
friends in Chicago.

Rev. Alfred Selah has gone to Port  
Atkinson to spend a few days, with  
friends.

Mr. and Mrs. D. H. Higgins, of the  
Ludlow House, were at Madison yes-  
terday.

W. H. Bragg is in Chicago.

Three African youths, Jesse Scher-  
win, Elmer Scherwin and Earl Zimmer-  
man each paid a fine of \$10 and costs  
at Monticello on a charge of illegal  
fishing. They caught some fish with  
a hook and line out of season. Game  
Warden Hugh Wilson caused the ar-  
rests to be made.

Farmers in Illinois adjoining Green  
county had cattle and hogs bitten by  
a mad dog. Sam Stacey, of Oneco,  
was obliged to shoot several head of  
hogs and cows and Walter Bolender,  
of Buckley, had the same experience.  
The dog made a vicious attack on one  
of Mr. Bolender's cows. Twenty-six  
wounds were counted on the carcass  
of the cow after it was shot. The dog  
has been killed.

CHARITY BALL WAS  
FULL DRESS AFFAIR

While Attendance Was Not up to Ex-  
pectations Many Tickets Were  
Sold and Receipts were  
Large.

Assembly hall, hung with the  
streamers of southern and  
white carnations and the wall border  
of electric lighted lanterns used by  
the Locomotive Firemen, was the  
scene last evening of the second an-  
nual charity ball given for the bene-  
fit of the Palmer Memorial Mercy  
hospital. Unfavorable weather and  
the full-dress character of the affair,  
perhaps, kept many away who other-  
wise have attended, but the sale of  
tickets was large and over eighty  
couplets took part in the festivity.

The guests were welcomed at half  
past eight o'clock by a reception  
committee composed of Mayor and  
Mrs. A. B. Hedges, and the Messrs.  
Wheeler, John G. Rexford, H. H. Biles,  
P. L. Wilbur, A. E. Hingham, George  
Doyles, and Dr. J. P. Pomeroy.

The other members were Messrs.  
and Mesdames P. S. Bales, T. O. Howe,  
P. S. Sheldon, Norman L. Carlo,  
George S. Parker, S. M. Smith, W. H.  
Dougherty, J. J. Mott, Arrangements  
were in charge of the Messrs.  
Daniel Ryan, W. T. Donley, A. J. Wil-  
bur, D. W. Hayes, Joseph Connors, and  
Joseph Donahue, and the members of  
the floor committee were: William  
McNeil, C. B. Putnam, P. H. Jackson,  
Geo. M. McKee, H. H. Hagar, R. M.  
Dowdell, and E. P. Ryan, most of  
whom were present only in spirit.

Knelt and Hinchey's orchestra dis-  
cussed an excellent program of waltzes and  
one-steps, quadrilles, and barn dances,  
which lasted until one o'clock. For  
one of the barn dance numbers the  
star of colored lights in the ceiling  
was cut out of the circuit and the half-  
illumination by the rethine of lanterns  
made a very pleasing and novel  
effect.

TRICK RIDER WINS  
HEARTY APPLAUSE

Audience at the West Side Last Night  
Was Small but  
Appreciative.

On account of the rain a small audi-  
ence was present at the West Side  
theatre last evening, but they made  
up in applause what they lacked in  
numbers. The bill this week is a  
good one and is fully up to the aver-  
age maintained by Manager Connors.

Two films on the moving picture ma-  
chine opened the program and were  
followed by Fern and Mack. Dressed  
in a clever take-off of the current  
college styles of clothing these two  
put on a good singing and dancing  
stunt and responded to several en-  
cores. Miss Nancy Rice with her  
harp and vocal solos made a decided  
hit and her numbers were heartily  
applauded. She sang several songs,  
both in German and English, accom-  
panying herself on the harp. James  
Hilly sang "Montez" this week,  
illustrated with colored slides.

Wheeler and Rosey in their trick  
bicycle-riding turn are well worth  
seeing. Wheeler defies all the laws  
of gravitation with his wheel and  
does some of the best trick riding  
ever seen on the yankee stage here or  
anywhere else and well earned ap-  
plause greeted his performance. His  
partner, Rosey, seemed to be some-  
what hampered by the small size of  
the stage.

The bill closed with another film  
describing the experiences of a girl at  
college.

## A Nourishing Meal for

These are times when the poor work to get something to eat and the rich work to get an appetite. Shredded Wheat satisfies both because it is economical and nutritious. Two Shredded Wheat Biscuits with milk or cream, will supply all the strength needed for work or play—at a cost of five cents.

For breakfast heat the Biscuit in oven, pour milk over it (hot milk in winter) and add a little cream. If you like the Biscuit for breakfast you will like toasted TRISCUIT (the Shredded Wheat wafer) for lunch—con or any meal with butter, cheese or marmalade. At your grocers.

## THE CAPTAIN OF the KANSAS

By LOUIS TRACY.  
Author of "The Wings of the Morning," "The Pillar of Light," Etc.

COPYRIGHT, 1906, BY EDWARD J. CLODE

"I don't wish to bind myself to a day or so, Miss Maxwell and gentlemen," he said, "but I've had a good look at the damage, and I feel pretty sure I'll get up steam in one hollow within ten days or a fortnight. It'll be a makeshift job at the best, because I have so few spare bits on hand, but I'll bet a year's pay the Kansas gets a move on her under her own steam soon after New Year's day."

New Year's day! What a lump in the throat the words brought in three days it would be Christmas, in seven more the new year! Though from the beginning of the voyage they were prepared to pass both festivals at sea, there was all the difference in the world between a steady progress toward home and friends and the present plight of the Kansas. Death, too, had thrown its shadow over them. Some there were to whom the passing of the years would mean no more in this world. Others, the great majority of the ship's company, were probably hidden by the same eternal silence. The last sight they had of them was a dim vision of boats rushing into a chaos of angry seas and foaming spray. But Courtney would have none of these mournful memories. "Isn't that glorious news?" he cried. "Now, Christobal, that motor trip in June through the Pyrenees looks feasible once more. And you, Miss Maxwell, though you have never qualified for an instant, can hope to be in England in the spring. As for you, Tollemauche, surely you will say that our prospects are 'fair' at the least."

"I would say more than that if it were not for these poisonous Indians," replied Tollemauche. "Here they come now, a whole canoe load of 'em. I have never seen such rotters."

And, indeed, Francisco Suarez, detailed to keep watch and ward over the ship until noon, ran up the companion and cried excitedly:

"Four headmen have just pulled off from Otter creek. They have missed me, I expect. They will want me to go back. I beseech you, senior captain, not to give me up to them, but rather to send a bullet through my miserable heart."

"Tell him to calm himself," said Courtney coolly when Christobal had translated this flow of guttural Spanish. "He has no cause to fear them now. Let him nerve himself and show a bold front. A palaver is the best thing that can happen. We must display all the arms we possess, bid any of our invalids who can stand upright show themselves, Christobal. We must lift you outside, Boyle. Bring your camera, Miss Maxwell. If we could give these fellows a good picture of themselves it would scare them to death."

Courtney infected them all with his splendid optimism. It was with curiosity rather than dread that they watched the rapid approach of the canoe and its almost naked occupants.

CHAPTER XI.

COURTNEY was mistaken in thinking that the savages sought a parley. The canoe was paddled by two women. They changed the course with a dexterous twist of the blades when within a cable's length of the ship and then circled slowly round her. The four men jabbered in astonishingly loud voices. Suarez, who gathered the purport of their talk, explained that they were discussing the best method of attack.

"The three younger men belong to the tribe I lived with," he said. "The old man sitting between the women is a stranger. I think he must have come from the north of the island with some of his friends, attracted by the smoke signals."

"From the north? Is there a road?" asked Courtney when he learned what Suarez was saying.

"He would arrive in a canoe," was the answer. "The Indians venture out to sea in very bad weather. It probably passed the ship late last night, and now I come to think of it, the canoe which you captured is not familiar to me, whereas I know by sight every craft owned by the Feathered People."

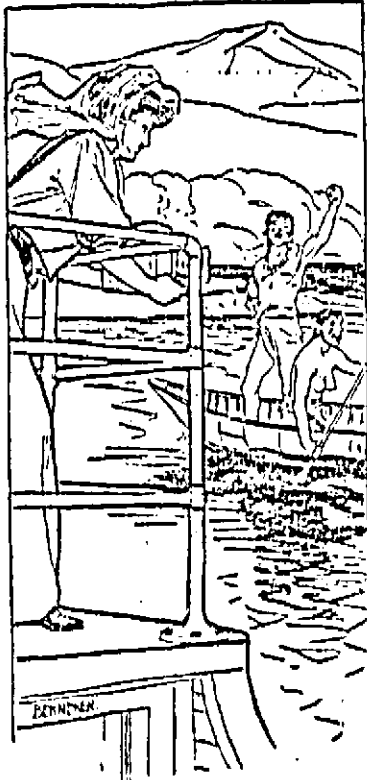

"How many do they possess?"

"Twenty-three."

These statements were disconcerting. Not only was it possible for the natives to surround the Kansas with a whole swarm of men, but the mere number of their boats would render it exceedingly difficult to repel a combined assault. And nothing could be more frequent than the demeanor of the savage warriors. They pointed at each person they saw on the decks and made a tremendous row when they passed the canoe fastened alongside. Despite their loud sibilant, they evidently did not recognize Suarez, who now wore a cap and a suit of clothes taken from the locker of one of the missing stewards.

The impudence of the Indians exasperated Courtney. The sheer size of the Kansas should have availed them, he thought.

At that moment the rowers permitted the canoe to swing round with the tide. One of the men stood up, and Elsie, who seized the chance of snatching the party, ran to the upper deck, so she did not overhear Courtney's snarled ejaculation. He was scrutinizing the savages through his glasses, and he had distinctly seen the ship's name painted on a small water cask on which the Indian had been sitting. Tollemauche made the same

Sold by all druggists in 25c size bottles, \$1.00, \$5.00, and \$10.00. Jayne's Tonic and Vermifuge is a gentle and effective tonic. Particularly good for children—8c. only. Wm. C. Clegg.

## Continuous Coughing.

Recommended When-over Used.

Baraga Store Co., Baraga, Mich., says—"Dr. Gun's Cough Remedy gives splendid satisfaction to our trade and where once tried in a family its constant use is an assured fact. Please send us four dozen each size."

D. E. Mallory, Amboy, Minn., says—"Dr. Gun's Cough Remedy gives the best satisfaction of any cough remedy ever handled."

Just as the value of some new uncommon mechanical device is first called into question without trial, so our remedy was first doubted and derided by those who thought they knew.

Naturally there have been "Doubting Thomases" who, clad in armor of old and rusty theories about medicines, have refused to believe that there could possibly be any improvement on the old doctrine. But progress never comes without opposition. It would have been unnatural if the force and power of our proof and magnetism of our success had not captured their reason and forced the doubters to revise their antiquated ideas about cough medicines. So we hold before you the remedy for Coughs, Colds, Whooping Cough and Croup—our remedy, the successful remedy. It is called Dr. Gun's Cough Remedy.

It is pleasant to take, absolutely harmless in every respect, and

as far as its effective results are concerned, words fail to express the relief that will be obtained from the first dose.

However severe the cough may be, if taken according to directions Dr. Gun's Cough Remedy will not disappoint you. Of course, every case is different and needs a different length of time for a cure; but the patient may rest secure in the assurance that as long as he is faithful to the treatment he can be completely relieved.

Try Dr. Gun's Cough Remedy; we say it is par excellence—the most thorough, rapid and effective treatment ever prepared for Coughs, Croup and Whooping Cough and we say it because of the results obtained from its use. There is no remedy "just as good." When a druggist says so he is thinking of his profit, and not of your welfare. It is a household necessity; look for pictures of "Gun" on front and back of each package.

## S.S.S. BLOOD POISON CURES A SAFE HOME TREATMENT

In S. S. S. nature has provided a certain, safe, home cure for Contagious Blood Poison. It is a medicine made entirely of roots and herbs of recognized blood-purifying value, and is the one medicine which is able to get down to the root of the trouble and remove every particle of the virus, and at the same time benefit and build up the system and general health. No harmful effects ever follow its use, as is so often the case when strong mineral medicines are used. As soon as the system gets under the influence of S. S. S. the disease begins to improve, and when the remedy has thoroughly purified the blood and driven out every trace of the poison, no signs of the trouble are ever seen again. The general manifestations of Contagious Blood Poison such as falling hair, copper-colored spots, ulcerated mouth and throat, sores and ulcers, etc., are merely symptoms of the poisoned condition of the blood, and in most cases respond quickly to local treatment, while S. S. S. is doing the necessary work of cleansing the blood. Our "Home Treatment" book is of great assistance along this line. It is a complete guide for treating the trouble, containing instructions for the different stages of the disease, and also valuable suggestions about the local treatment, that will be most helpful in effecting a cure. We will be glad to send a copy of this book, free of charge, to any who desire it, and if special medical advice is wanted our physicians will take pleasure in supplying it without cost to the patient. If you are suffering with Contagious Blood Poison you can cure yourself in the privacy of your own home by the use of S. S. S., an absolutely safe remedy.

## PHYSICIANS DISCUSS NEW THEORY

### Cooper's Views of Human Stomach Noted by Medical Men.

A recent article in the New Orleans Item gives an account of the effect upon the medical profession of that city with regard to L. T. Cooper's theory that the human stomach is responsible for most ill health. The article is as follows:

"The astonishing sale of Cooper's preparation in this city has now reached such immense figures that the medical fraternity have been forced into open discussion of the man's theories and medicines."

"The physicians seem to be divided with regard to the young man's success in New Orleans—some being willing to credit him for what he has accomplished, while others assert that the interest he has aroused in but a passing bid that will die out as quickly as it has sprung up."

"In a statement recently obtained from a well-known physician of this city, the position of those in favor of Cooper is well voiced. The doctor said: 'I am not a believer in proprietary medicines, but I must admit that some

of the facts recently brought to my attention concerning this Cooper medicine have gone far toward removing the prejudice I had formed against them when I first heard of Cooper's new ideas and medicines."

"Numbers of my patients whom I have treated for chronic liver, kidney and stomach troubles have met me and stated that Cooper's medicine has accomplished wonderful results for them. I notice particularly in cases of stomach trouble that the man has relieved several cases that were of years' standing and proved very obstinate to treatment."

"I do not wish to stand in the way of something that may be for the public good, simply through professional prejudice, and I am inclined to give Cooper and his preparations credit as deserving to some extent the popular demonstration that has been accorded them in this city."

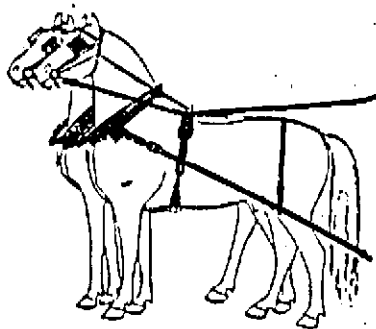

We sell the Cooper medicines. They are proving remarkably successful throughout the entire United States.—E. H. Heimstreet.

## FORTY YEARS AGO

Jamesville Gazette, April 25, 1868.—  
Dry—Not the weather, but the "local field." We wish somebody would happen to do something on our account.

A Damaging Explosion—An immense steam cylinder in the establishment of the Rock River Paper Co. in Beloit, exploded a few days since with tremendous force, blowing the building in which it was located to pieces and demolishing the cylinder itself. Very fortunately no one was hurt, although one man who stood very near it was blown some distance, receiving a slight scalp in the face. The damage was considerable, but under the energetic management of Mr. S. T. Merrill the mill will soon be as good as new again.

The track on the Union Pacific railroad has been laid four miles beyond the summit of the Rocky Mountains, making 550 miles beyond Omaha.

Impeachment—Judge Rootwell concluded his argument yesterday, and Mr. Nelson commenced his opening argument for the defense, which is represented as the most ludicrous address ever delivered in the Senate.

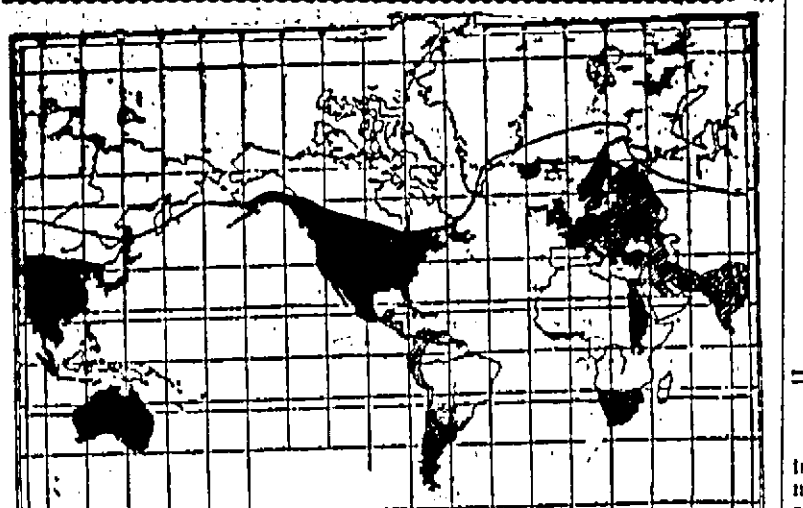

It was a Tennessee stump speech, in which the life of Andrew Johnson and political successes were recited with great earnestness and a very loud voice. The Senate finally adjourned in self defense, with the dubious prospect of a further infliction from Mr. Nelson today. Mr. Groesbeck will follow him, then Messrs. Williams and Stevens on the part of the Managers. If they have the strength, then Mr. Evans and lastly Mr. Bingham. Mr. Stevens says that he believes thirty-eight votes are certain for conviction, and thinks that the few doubtful senators, finding the impeachment going through, will also fall in line.

Mr. Stevens has been gaining strength lately, and intends to deliver his argument on impeachment orally, but does not purpose making it more than an hour long, confining himself mainly to the article for which he considers himself responsible.

MAP SHOWING THE WORLD'S LITERACY.

Some curious facts are shown by comparison of the above maps. It shows that the percentage of literacy is highest where the English-speaking races predominate.

English, now, leads all other languages in the number of its readers. Three-fourths of the world's mail matter is addressed in English. More than half of the world's newspapers are printed in English, and as they have a larger circulation than those in other languages, probably three-fourths of the world's newspaper reading is done in English.

The languages next in importance French and German, cannot maintain their relative positions because English has more than half of the new land in the temperate zone and they have no. The languages which have the most of the new territory, Spanish and Russian, are not established as culture languages, as English is. No other language, not even French or German, has a vocabulary so uniform and well established, and with so few variations from the literary language. English is spoken in the United States by more than 50,000,000 people with so slight variations that no foreigner would ever notice them. No other language whatever can show more than a fraction of

Belvidere, Ill., Apr. 24.—Madness by the knowledge that another man was paying attention to his sweet heart, Morris Bengtson Thursday morning shot Miss Sigrid Appleholm, probably mortally wounding her.

Rushing from the house into the highway, he then put a bullet through his heart. Bengtson was engaged to the girl and had given her a ring. Recently he received threatening letters and then learned that another was paying court to her. He demanded his ring, and then as she was bidding him good-by he grasped her, drew a revolver, and fired three shots, the skull deflecting two and the third lodging in her neck near the jugular vein.
